## PROFILE

Dedicated and organized Low-code developer with over 5 years of experience in OutSystems. Over the past 7 years, I have worked as a Tech Lead, Software Architect, and Database Administrator, leading development teams and delivering business-oriented solutions. I also have a strong technical background in PHP, JavaScript, jQuery, CSS, SQL, Git, and agile methodologies such as Scrum. Passionate about creating scalable and efficient applications, I am looking for opportunities to contribute to international teams. I value continuous learning and strive to grow both technically and professionally in dynamic environments.

---
